PhD Candidate in “Managerial and Actuarial Sciences”

The University of Udine opens 7 PhD positions in Managerial and Actuarial Sciences.

The programme structure

The PhD in Managerial and Actuarial Science is on full-time basis only. The duration is three years and the courses are organized around three curricula:

1. Statistics and Actuarial Science
2. Economics and Management of Innovation
3. Welfare Management and Economics

The first year and a half consists of a number of graduate courses in areas related to different fields of interest. Then students are encouraged to spend a minimum of 6 months in a foreign University, where to develop relationships able to increase knowledge and competencies useful for the final dissertation.

The programme and the courses are entirely held in English. International students are encouraged to apply.

Location

The Administrative course location is the Department of Economics and Statistics - University of Udine - via Tomadini 30/A, Udine ITALY (tel. +39 0432 249380); the associated location is the University of Trieste (Dipartimento di Scienze Economiche, Aziendali, Matematiche e Statistiche) - Piazzale Europa 1, Trieste ITALY

Teaching and other training activities will take place primarily at the course location or in other structures of the University of Udine or in other universities which participate to the doctoral project. The research activities will take place mainly at the supervisor's institute or at research laboratories assigned by the teaching board.

Grants

The PhD MAS offers 7 fully funded scholarships.

Closing date for application

July 10th, 2019

Application

Applications must be filled online:

The University of Udine

The University of Udine was founded in 1978 as part of the reconstruction plan of Friuli after the earthquake in 1976. Its aim was to provide the Friulian community with an independent centre for advanced training in cultural and scientific studies.

The University currently has the following degree programmes in: Agriculture, Economics, Engineering, Law, Modern Languages, Communication and Training, Humanities, Medicine and Surgery and Mathematics, Computer Science and Multimedia.

The University is actively involved in student and staff exchange projects with universities within the EU and is currently engaged in close collaboration with several universities from Eastern Europe and other non-EU countries. Moreover the University participates in many research projects at national and international level. The present number of students enrolled at the University is approx. 17000.

Udine and its University are a point of reference in a region which is historically a meeting place and crossroads of different worlds and cultures. Geographically situated in the centre of the European Union, the University of Udine plays an active role in a close network of relations, committed to sharing its knowledge and ideas. Since its establishment, Udine University has pursued the policy of internationalisation, aimed at preparing students and forging relations and partnerships with universities and institutions in Europe and the rest of the world.

Udine University collaborates not only within Europe but across the globe and has long-standing connections with Africa, India and China
