DEPARTMENT: Bay Area International Business School

DISCIPLINE: Economics, Finance, Accounting, Management (including environment management and energy management) and other related fields

POSITION: Assistant Professor/ Associate Professor/ Full Professor/ /Research Fellow (Post-doc)

LOCATION: Zhuhai Campus; No 18 Jinfeng Road, Tangjiawan, Zhuhai City, Guangdong Province, China

UNIVERSITY AND DEPARTMENT OVERVIEW:

Beijing Normal University

Beijing Normal University (BNU) is a public comprehensive university that is renowned for teacher education, education science and basic sciences and humanities. Its roots go back to 1902 when it was established as the Normal School of Peking University. According to 2020 QS World University Rankings, BNU is ranked 277th among world universities, and 10th among Chinese mainland universities. In 2017, it was included into the Category-A list of the country's initiative to build world-class universities, and 11 disciplines have been selected for China's "Double-First Class" Initiative. BNU is vigorously building a high-caliber system for the development of subjects and a "one university, two campuses" pattern where the Beijing Campus and Zhuhai Campus complement and reinforce each other with different areas of focus.

Bay Area International Business School

Bay Area International Business School at Beijing Normal University (referred to as the School henceforth) is a leading international business school integrating higher education, subject research

and social service. Located in the Gunagdong-Hong Kong- Macao Greater Bay Area of China, the School is committed to building a higher education platform, which will connect students with top firms in the industry and link research with the development of bay area. In terms of discipline setting, the School not only covers all disciplines of traditional business schools, but also sets up application-oriented disciplines based on the current industry development. As a research-led business school, the School pays great attention to research and innovation, and makes a great investment every year. It includes inviting global talented academics to join the School and creating a platform for researchers to work with enterprises in the industry. The School is now on the path to pursue its vision to be a leading international business school in the world.
