### **Assistant / Associate full Professor in Digital Marketing, Quantitative Methods, Supply Chain Management, Entrepreneurship & Innovation, International Business, Project Management, Human resources Management**

ESCA Ecole de Management is looking to recruit talented faculty with high research and teaching potentials for the position of Assistant/Associate faculty on a full-time basis in the disciplines below starting September 2022: **Digital Marketing, Quantitative Methods, Supply Chain Management, Entrepreneurship & Innovation, International Business, Project Management, Human Resources Management.**

**JOB DESCRIPTION:** Your mission will be to participate in the deployment and improvement of programs through innovative teaching, scientific achievements, supervision, and contribution to the various academic activities of the school.

**JOB QUALIFICATIONS:** we are on the lookout for rigorous, innovative, and motivated faculty members with a passion for teaching and a taste for scientific research:

- Ph.D. / Doctorate in the requested fields of education.
- Effective teaching and research experience.
- Publications in peer-reviewed journals.
- Fluency in English is a distinctive asset.

Compensation will be based on the applicant's academic qualifications and experience.

**ABOUT OUR SCHOOL:** ESCA Ecole de Management is a higher education pioneering institution

located in CASABLANCA, Morocco's economic capital. ESCA is the first AACSB accredited school in Morocco and French-speaking Africa. The school offers a wide range of programs in different management disciplines to train a new generation of high-potential executives, carrying values of modernization, ambition, innovation, and a sense of social commitment. For further information about the school, its programs, and research opportunities, please visit the website:

<https://www.esca.ma/en/>

- **A new state of the art campus**

Join us at ESCA's new innovative campus located at the heart of Casablanca Finance City, the regional hub for financial companies. The campus follows the best international standards and offers faculty and students a unique learning and teaching experience with well-equipped spaces that favor team-working and creativity.

- **A dynamic team of talented individuals**

Be part of a dynamic group of highly qualified members who value teamwork, continuous improvement, and growth. You will join an interdisciplinary team of high potential faculty members with diverse academic backgrounds and research orientations. You will also benefit from a supportive work environment that promotes constant learning that helps you stretch your teaching and research capabilities.

- **A prosperous research environment**

ESCA Ecole de Management values high-quality, impactful research and offers its faculty numerous opportunities through a vast network of national and international partnerships. The school relies on a rigorous research structure that incentivizes various forms of scientific publication. ESCA's research department will abet your research goals through its four research groups throughout your publication process.

**APPLICATION PROCEDURE:** Please send your resume and cover letter by email to [enseigner@esca.ma](mailto:enseigner@esca.ma). You may include any relevant information that will help you stand out (references, publications, awards, ...).
