Research Engineer in Empirical Corporate Finance

NEOMA Business School is one of top-tier business schools in France. Our mission is to train and support future managers and entrepreneurs to provide responsible leadership that goes beyond current dominant models of business and leadership. We develop empowering management through world-class rigorous and relevant research that inspires our teaching and learning experiences, reaching all of our stakeholders.

NEOMA Business School is one of the few elite business schools in the world with triple accreditation (AACSB, EQUIS and AMBA). We offer the ideal balance between the French savoir-vivre and ready access to the heart of business in Europe. If you are looking to push the frontiers of knowledge in your discipline, and are committed to sharing this knowledge with our stakeholders, you will find NEOMA Business School an ideal place to advance your career.

Job description

We are looking for a highly skilled and motivated individual to work as a research engineer in Empirical Corporate Finance.

The ideal candidate will 1) have strong skills in managing (collect, clean, and match), and analyzing panel and time-series data, 2) have outstanding programming skills, preferably in Python and Stata, and 3) be familiar with financial databases as well as with WRDS platform.
