### **DIGITAL LEARNING DESIGNER AT ICN BUSINESS SCHOOL, PARIS OR NANCY**

Founded in 1905, EQUIS, AMBA & AACSB accredited, ICN Business School, a French Grande Ecole in Management, is one of the leading business schools in Europe with campuses in Nancy and Paris and Berlin.

ICN Business School strives to be a reference in innovative, transdisciplinary and responsible business education in the heart of Europe. ICN prepares students and managers to meet the needs of today's and tomorrow's workplace. Innovation, creativity and the capacity to work beyond traditional disciplinary borders are fostered through the school's ATM teaching and learning philosophy, and ongoing commitment to the SDG. In line with its mission and vision, ICN Business School values openness, commitment and team spirit from faculty, staff and students. The School counts 3,000 students, a highly international faculty of 80 professors, more than 120 partner universities around the world and a vast corporate network.

ICN is committed to delivering an exceptional and inspirational learning experience to its students. As part of this commitment, ICN pursues an ambitious development plan for the design and delivery of high quality digital learning experiences throughout the School's growing digital learning portfolio, and is looking to reinforce its educational technology teams with a digital learning designer. The post-holder will develop the learning design of digital teaching sessions, modules and programmes on the Bachelor, Master and post-experience level. This includes in particular the storyboarding of content and activities as well as assessment. S/he will partner with our international faculty and work closely with the School's learning technology unit.

The digital learning designer will be a key contributor to the ongoing development and application of ICN's digital teaching & learning strategy for engaging online and blended delivery. S/he will also provide guidance to and train faculty as well as support programme management teams in the development of innovative learning opportunities and educational offers.

The successful candidate will be offered a permanent position and become part of the School's growing educational technology teams that drive ICN's ambitious teaching & learning strategy. ICN offers an attractive remuneration and incentive package, in line with the position and the qualifications of the successful candidate. The post-holder can choose to be based on the School's

ARTEM campus in Nancy or its new Paris campus in the heart of La Défense.

### **Requirements**

The post-holder must have a Bachelor or Master degree in a relevant discipline, ideally related to education. The successful candidate will need excellent learning design skills and must possess significant experience of pedagogical or educational design. The ability to create and maintain productive and collaborative working relationships across the School, in particular with faculty, learning technology and IT teams are essential. Experience of working within the higher education sector and/or in a customer facing setting are desirable.

Candidates are expected to be fully operational in English. Proficiency in French is not required, but will be considered an asset. French language training can be provided.

The application should consist of **a curriculum vitae** and **a cover letter**.

The application package should be sent to **Ana DAHI**, [ana.dahi@icn-artem.com](mailto:ana.dahi@icn-artem.com).  
Questions can be directed to the School's Academic Director, **Wolfram BERGER** :  
[wolfram.berger@icn-artem.com](mailto:wolfram.berger@icn-artem.com).
